Plan M3215A3F-0
Architects Northwest

UPPER FLOOR PLAN

MAIN FLOOR PLAN

Architects Northwest has designed this home that has both formal living space and a spacious and cozy family room. Both the formal living room and family room have gas fireplaces. The spacious kitchen has a large cooking island and is open to the family room. The flared staircase flows into the entry opposite the double door den. The 4 large bedrooms upstairs are highlighted by the master suite with sitting room and corner mounted spa tub. Look for the quality finishes you expect, including ample hardwood flooring, granite counters and stainless steel appliances.
